

Accelerate Your Impact Through BOARD DEVELOPMENT

The leadership of an organization sets the vision for the future and the direction for the rest of the team. We work with organizations at various stages of development to strengthen their board leadership and governance.

COLLABORATE

We are partners with your board and your staff. We work closely with all of you throughout our partnership to create the best outcomes for your organization.

ASSESS

We approach every board engagement with fresh eyes. We evaluate and analyze your current situation and then develop the appropriate solutions based on our assessment.

CREATE

Every board is unique which means you need a unique development plan in order to achieve effective results. We combine our expertise with your goals to create the right solution.

“What we accomplished in the months that Transform Consulting Group worked with us is nothing short of phenomenal. We added three new board members, and strengthened the overall commitment and engagement of our Board of Directors.”
Kelly Stokesbury, Former Executive Director, Girls on the Run of Central Indiana

Life Cycle of Boards

OUR SERVICES:

- ☑ Perform board assessments
- ☑ Assist with board recruitment, orientation and onboarding of new members
- ☑ Develop board bylaws, policies and handbook
